

Road Closure

The BISD and City of Burkburnett would like to notify citizens of major stormwater drainage work at the intersection of Kramer, County and Ameron roads. This project will curtail travel and eliminate passage through the railroad track crossing at the location along Kramer Rd.

The drainage work at the site is slated to begin this Friday, July 7, at 10 am. Motorists who utilize Kramer as a through passage may want to research alternates routes since the road will be impassable at the railroad crossing.

County and Ameron roads will both remain open during the work, although a portion of County Road will be reduced to just one lane at various times as the project proceeds.
