

City Commission Agenda Memo

From: Mike Whaley

Date: 3-19-2012

Item: CP Overlay District: 1400 Block Amherst

Background

The application was presented by Ken Walker and Ben Chapman located at 1414 Amherst and 1416 Amherst. The request follows all the guidelines as set forth by the Zoning Ordinance. All publishing and mail out requirements have been met. Also, the required amount of signatures (75%) has been satisfied and ownership has been verified by City staff. 20 out of the 22 property owners on the block has signed the petition in agreement to allow a carport overlay district. The P&Z unanimously voted to approve.

Fiscal Impact

Council Agenda Memo

From: Mike Whaley

Date: 3-19-2012

Item: Specific Use Provision (SUP) at 2043 E 3rd St to allow an indoor firing range

Background

This request is for a SUP to allow an indoor firing range to operate at 203 E 3rd St. The application was prepared by James White who will be the tenant operating the range and also signed by Tina Feller the property owner. The applicant has presented a copy of their federal firearms license. At this point there is no direct conflict with the zoning ordinance.

Fiscal Impact

N/A

Other Board/Committee Actions

The SUP request was unanimously approved by the Planning and Zoning Commission.

Staff Recommendations

No specific recommendation. However, there may need to be some discussion as to the set up pertaining to lead removal, sound barriers, and safe proofing. The applicant has presented materials addressing these issues and thoroughly discussed these matters at the P&Z hearing but more discussion may be required.

Boomtown Armory LLC

Request for Special Use Permit

James White

2/1/2012

The purpose of this request is for the installation of an indoor firing range at 203 E. Third St. Burkburnett, TX 76354. The property is owned by:

Feller Land & Cattle Inc.
Mel and Tina Feller
209 E. Third St.
Burkburnett, TX 76354
940-781-6617

The range will be operated by;

Boomtown Armory LLC
James M. White
203 E. Third St.
Burkburnett TX, 76354
940-632-5378

The following presentation will outline facts and information regarding the range, its layout, use and safety. Four areas will be discussed;

- 1.) Operator of the Business.
- 2.) Use and Operation of the Facilities.
- 3.) Layout of the Facility.
- 4.) Firing Range Safety and Information.

1.) Operator of the Business.

Boomtown Armory LLC intends to open a full service gun store at the listed address. All applicable filings have been made to the State's Attorney General, State Comptroller, and IRS. A Federal Firearms License was applied for and has been obtained for the location. The license number is 5-7-485-1-5B-06974. During this process the ATF sent a field agent to discuss all applicable laws and regulations and ensure that location complied with state and federal law. During the license procedures it was required to submit the application to the local Chief of Police for review.

The business has intentions to sell firearms, provide a safe, well trained, climate controlled environment for firing firearms, and provide training to the general public. Training will consist of a state approved concealed carry facility, basic and advanced training of firearm use and care, and many youth programs regarding gun safety and handling. A list of non-firearm classes such as crime and violence prevention for the community will also be offered. Also the facility would be able to be used by law enforcement, and training for the operators is scheduled so that law enforcement training could be offered and utilized.

The store will be owned and operated by James Michael (Mike) White. A Burkburnett resident, Mr. White is a 10 year veteran of the Air Force and has extensive training on the use and care of firearms. Also assisting Mr. White in operation is his brother Jeremy White. Jeremy is a Marine Corps veteran, and has held positions in security, Department of Defense law enforcement, and is currently employed by Wichita County Sherriff's Department. Both have held positions in youth training and mentoring.

2.) Use of the Facilities.

Initially the hours of the store will be Tuesday – Saturday 9:00am to 7:00 pm. All staff employed by the business will be responsible members of the community and the business will conduct background checks on everyone hired. The sales area will offer a safe area for handling firearms considered for purchase. Federal regulations require firearms be secured when not being utilized due to child safety regulations. Boomtown Armory intends to meet all of these regulations and intends to be more stringent in certain areas than required. Proper FBI background checks will be conducted on all purchasers. Training will be conducted in a proper training environment on the premises by trained individuals.

Use of the range will fall within these hours unless reserved for specific use (i.e. special training or law enforcement use). In order to utilize the range, patrons must read and sign a Range Rules and Hold Harmless form. (See attached document entitled "Range Rules".) By signing the agreement they become a member of the range and agree to abide by those regulations. A trained range official will be on duty at all times to monitor safety and performance of each individual. A control room will be positioned behind the shooting lanes to monitor shooters. Those members not following safety rules, or acting in an unsafe unprofessional manner will be asked to leave and their membership will be reviewed for dismissal. Hearing and eye protection is mandatory (and will be offered for free) as well as a dress code for proper clothing.

3.) Layout of the Facilities

A diagram will be provided as an attachment.

To the west of the property is 201 E. Third. This building is also owned by Feller Land & Cattle. The east side has a business occupied by a beauty salon. The owner is Pat Yarmoski. Neither the owner nor the occupants have expressed any opposition to date.

Upon entering the facility from the front there will be a showroom. To the rear of the showroom there will be an office, control room, entry control point and a corridor leading to the rear of the facility to the restrooms and training room. The control room is the area where the range official can monitor through bulletproof glass the shooters on the lanes. The entry control point will consist of a small hallway with two steel opposing doors. The layout of these doors will prevent any accidental discharge of a live round outside of the range.

The range itself will consist of six lanes. Each lane will have a shooting station. This station will be a barrier to prevent shooters from entering the line of fire, and as another means of protection for the shooters.

A rubber berm barrier will be the backstop (See attached documents for more information on this as well as the other means of protection). The barrier will consist of two feet of chopped rubber media on a 30 degree steel slope. This type of backstop is utilized by numerous military and police organizations. It is a safe material that can stop a large caliber handgun round at point blank range. It does not fragment the projectiles and they are left whole against the steel greatly eliminating any lead dust. Thus it is environmentally friendly.

The range itself will utilize the brick and concrete construction of the building as a barrier with steel panels and ballistic tiles in vulnerable areas. Ceiling baffles will prevent projectile penetration using steel and or ballistic tiles.

Sound escaping the range will not be an issue. Insulation and acoustic tiles will be used to control noise, as well as placing the range in the center of the structure. Noise outside the building itself will be extremely minimal and will not be heard with normal ambient noise.

4.) Firing Range Safety and Information.

Most questions can be answered with information provided by manufacturers and suppliers of the media used in the construction of firing ranges. The following attachments are provided ;

- a. Boomtown Armory Range Rules
- b. Super Trap Rubber Berm and Ballistic Tile Information
- c. Rubber Berm Cut Sheet from Action Target
- d. Safety Baffles from Action Target

- e. Shooting Stalls from Action Target
- f. Encapsulator Trap from Range Systems

Boomtown Armory LLC

Boomtown Armory LLC
Range Rules & Regulations

****Rules Subject to Change Without Notice. Please Check with the Range Staff for the most Current Rules****

SAFETY RULES:

- TREAT ALL GUNS AS IF THEY WERE LOADED
- KEEP YOUR FINGER OFF THE TRIGGER UNTIL READY TO FIRE
- BE SURE OF YOUR TARGET AND WHAT'S BEYOND
- ALWAYS WEAR HEARING AND EYE PROTECTION

RANGE RULES, REGULATIONS & WAIVER OF LIABILITY AND CLAIMS

Must be signed and followed by all who enter range to shoot

1. GUNS & TARGETS BROUGHT INTO THE RANGE:

All firearms brought into the range must be completely UNLOADED, unless you are a conceal carry permit holder. All guns and ammunition will be inspected for cleanliness, workability, and safety before entering the range. Targets must meet minimum range requirements (10.5 x 12).

2. RANGE OFFICER:

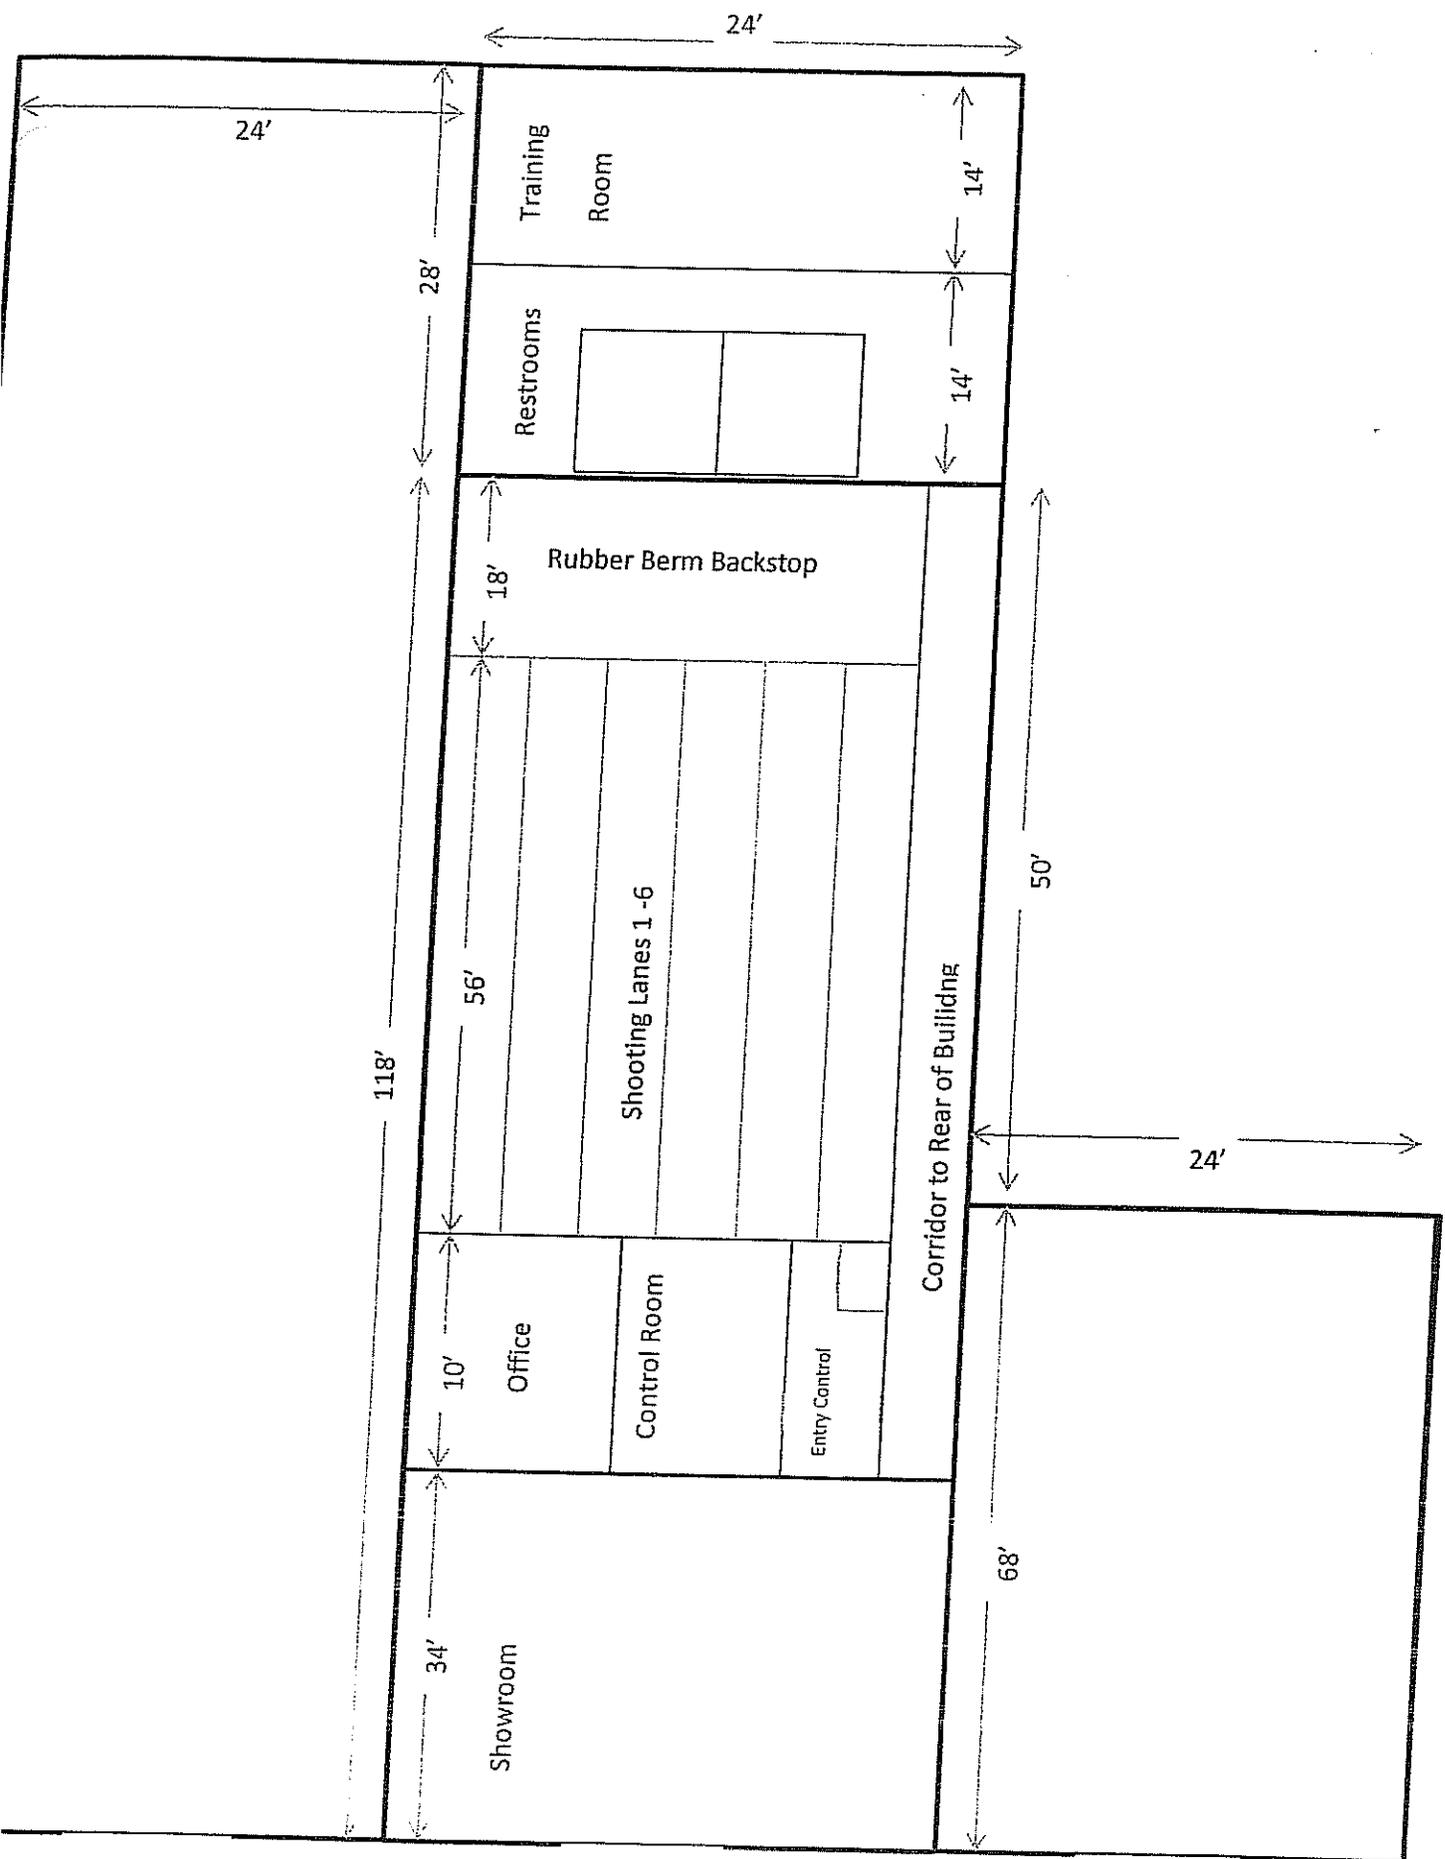

- a. The Range Officer on duty is in direct charge of the range at all times.
- b. The Range Officer will ban from the range any person handling a firearm in an unsafe or careless manner.

3. FIRING LINE PROCEDURE:

- a. Only one loaded gun at a time. No other gun handling behind the firing line.
- b. Make sure your ear and eye protection is on before entering the range. Take position at the lane assigned to you. Do not change lanes.
- c. The **MUZZLE MUST BE POINTED DOWN RANGE AT ALL TIMES.**
- d. No rapid firing is allowed.
- e. Targets **MUST** be set at a full distance before shooting *rifle calibers only*.
- f. Shooters must load and unload their own firearms. If a mechanical malfunction occurs, check with the Range Officer.
- g. Only line of sight firing is permitted. (**No drawing from the hip or holster**). Keep your finger off the trigger until on target.
- h. When leaving the firing line temporarily, lay the firearm with the muzzle down range and the action open.
- i. When you are completely finished and want to leave, unload firearm(s) with the action opened, unless it is cased.
- j. Cease Firing means...**STOP** shooting and step back from the firing line.
- k. Write the number three below the date line on the last page.
- l. **DO NOT REMOVE JAMMED OR MALFUNCTIONING FIREARMS** away from the firing line; contact the Range Officer immediately.

4. VANDALISM:

Any person seen firing at lights, baffles, carriers or any other range property or equipment will have their membership suspended and will be reported to the proper authorities for appropriate

201 E. Third

203 E. Third

205 E. Third

action. Firing at boxes, cups, or other objects is prohibited. Only targets authorized by the Range Officer will be permitted. You will be held accountable and may have to pay for any damage you cause.

5. FIREARMS PERMITTED: .

- a. Rifle ammunition faster than 3400 fps not allowed. Check with Range Officer for specific calibers.
- b. Most handguns except those chambered for centerfire rifle ammunition above 2,000 fps are permitted on the Pistol Range.
- c. Full automatic firearms are allowed at the discretion of the Range Officer and proper paperwork must be presented. (**Pistol calibers will ONLY be allowed**).
- d. Shotguns are allowed at the discretion of the Range Officer.
- e. Any firearms not mentioned here, check with the Range Officer before using them on the range.

6. AMMUNITION PERMITTED:

- a. Standard commercial and reloaded ammunition is permitted.
- b. Any type ammunition designed for penetrating metal is not permitted.
- c. **NO STEEL JACKETED, STEEL SHOT OR STEEL CORE BULLETS** permitted.
- d. **No tracer, incendiary, gas or explosive ammunition permitted.**

7. FIRING LINE OCCUPANTS:

- a. All persons' using the facilities will be of good character. Appropriate dress is required at all times. Please remember we are a family oriented facility. (We have the right to refuse service to anyone. Anyone who has the smell of alcohol on their breath or who appears impaired will be invited to leave the facility).
- b. All persons' utilizing the range are required to receive, understand and sign the rules, regulations and disclaimer notice.
- c. A responsible adult must accompany persons' under twenty-one (21) years of age. This adult shall act as a coach and **MUST** remain with the minor at all times while the minor is utilizing the range.
- d. **NO FOOD, DRINK, CHEWING TOBACCO, SNUFF, OR SMOKING ON THE RANGE.**
- e. Only one shooter and coach permitted per point, only one un-cased firearm permitted at the firing lane.
- f. Persons' not shooting or coaching are not permitted on the range.
- g. Circle the number you previously put under the date line.
- h. No one permitted forward of the firing line or beyond the carpet area. (**NO EXCEPTION**).
- i. Any equipment or other personal items in a shooting point left unattended is at the owner's risk.

8. BRASS RETRIEVAL:

- a. **ALL RANGE BRASS IS TO BE PUSHED FORWARD OFF OF THE CARPET.**
- b. **DO NOT GO DOWN RANGE TO RETRIEVE YOUR BRASS.**

9. EYE PROTECTION:

- a. Safety glasses are **MANDATORY**. Available for loan at no extra charge.

10. EAR PROTECTION:

- a. All persons' on the range **MUST** wear some form of ear protection. Available for loan at no extra charge.

IF YOU HAVE ANY QUESTIONS,
PLEASE FEEL FREE TO ASK THE RANGE OFFICER
ABOUT ANYTHING YOU ARE NOT SURE OF.
WE WILL BE HAPPY TO HELP IN ANYWAY WE CAN.

HELP US KEEP THIS RANGE SAFE.
PLEASE ABIDE BY THE RULES AND REPORT
TO THE RANGE OFFICER ANYONE YOU SEE NOT OBEYING THE RULES:
AFTER ALL, IT'S YOUR SAFETY WE ARE CONCERNED ABOUT.

Waiver of Liability and Claims

I, my agents, assigns, executors or administrators for the consideration of being allowed to enter, rent and or use the facilities, and services of Boomtown Armory do hereby **absolutely and unequivocally agree to release and hold harmless Boomtown Armory LLC**, its agents, employees, instructors, assigns, owners and successors from any & all claims, demand or liability, arising out of any injury loss or disability connected with the use of, attendance or activities at the facility. I further understand that shooting can be dangerous and will at all times exercise safe gun handling practices.

BULLET TRAPS

RUBBER BERM TRAP™

U.S. PATENT #'S 6378870 & 6533280

At its most basic level, a rubber berm trap is approximately 24 inches of chopped rubber laid on top of an angled support structure to create a backstop or "berm" to catch bullets fired into it. There are several approaches to this fundamental idea, but the same basic principles apply to them all. The hassle-free design of Action Target's rubber berm trap - or RBT - takes advantage of the practical and beneficial properties of rubber, while eliminating the weaknesses and unnecessary elements of other designs.

HOW IT WORKS

When you shoot into a dirt berm, the friction of passing through the dirt is what ultimately stops the bullet. A rubber berm trap works exactly the same way, with the obvious difference being the use of chopped rubber instead of dirt or sand.

Because the rubber is a softer collection medium, ricochet and lead dust can be significantly reduced in some applications. Cross-range firing is safer, as is firing at extremely close distances. Such benefits make this trap an excellent choice for certain indoor ranges and other low-volume ranges where lead dust is a paramount concern.

SUPPORT STRUCTURE

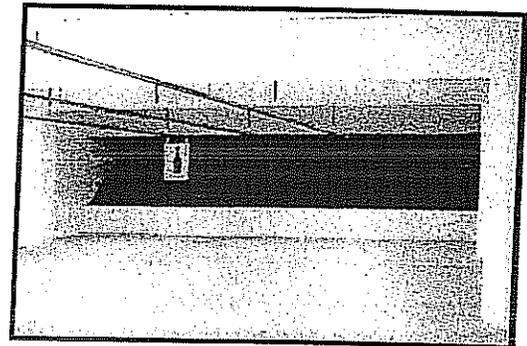

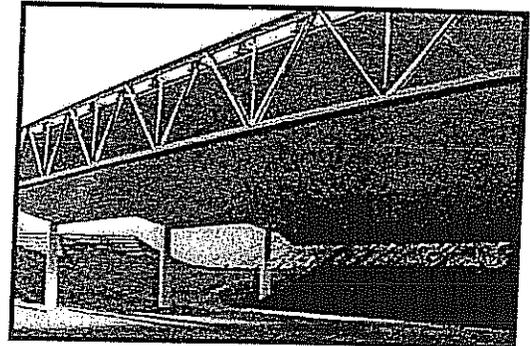

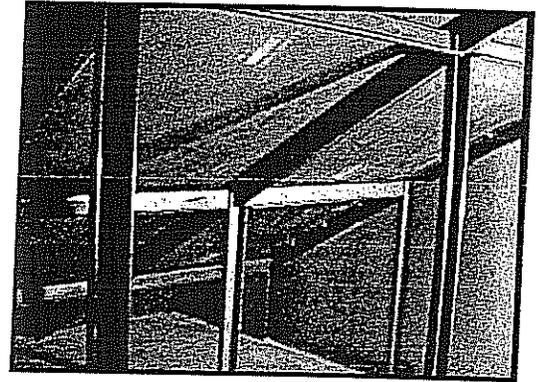

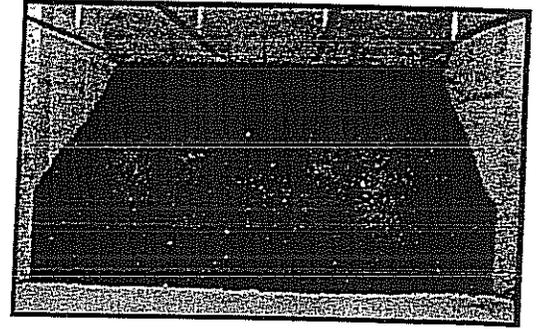

Our steel support structure is modular, so we can build a trap to fit any size range. Because all the components can easily fit through a normal sized door, installation is simple and efficient - even on older existing facilities. If one of the components is damaged, it can be easily removed and repaired without disassembling the entire trap. Because no hoppers, doors, or access panels are required on the top or the back of the trap, we can build it flush against the walls to save you as much precious range space as possible.

KEEPING THE RUBBER IN PLACE

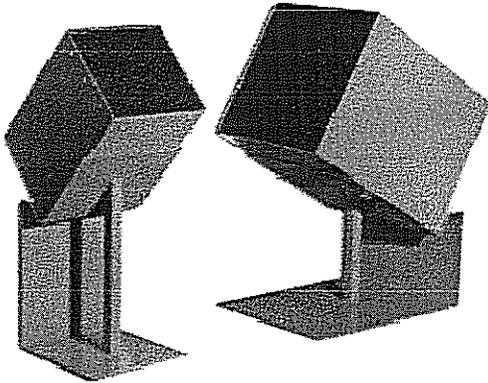

If left unchecked, the rubber has a tendency to "flow" towards the bottom of the trap. This can cause areas of hazardous decreased density near the top which may allow rounds to escape. Additionally, you must now spend time and money getting the rubber back up on the berm where it belongs.

To eliminate these problems, our support structure is mounted with special fins that run horizontally along the trap. These fins are buried when installation is completed, and they help keep the rubber in place without the need for hoppers, bins, rubber curtains, or other devices.

OVER...

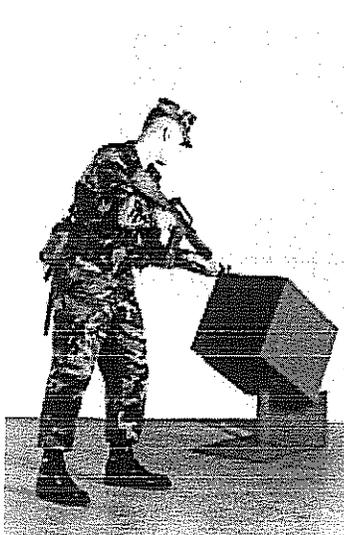

SUPER TRAP®
RIFLE AND PISTOL CLEARING BOXES

Super Trap® clearing boxes are the ideal solution for clearing your pistol or rifles. The HB-100 (left) is capable of handling up to .454 Casull. The HB-150 (right) can accommodate up to and including .460 Weatherby Mag.

The Super Trap® Clearing Box is the ideal multi-purpose clearing box in any situation where firearms need to be safely loaded or unloaded. They are so safe they may be safely used for other tasks such as for ballistic pattern testing or the test firing of weapons by Gunsmiths and Armorsers. Super Trap® Clearing Boxes safely contain all deliberate, accidental and/or negligent discharges, and reduce liabilities associated with conventional clearing stations. Super Trap® Hot Boxes eliminate harmful ricochet projectiles or lead splatter.

Super Trap® clearing boxes are:

- ✘ Safe!
- ✘ Capable of being installed anywhere!
- ✘ Inexpensive!
- ✘ Capable of handling any weapon from pistol to high power rifle!
