Item 11. Commissioner Thornton addressed the Mayor and Commissioners. Commissioner Thornton stated that during the time he has served as a Commissioner he has been asked two questions repeatedly: Why does the Council get to elect the mayor instead of the citizens? and Why won't the City move away from its current at-large system to a precinct or ward system? Commissioner Thornton

proposed an election process that would involve electing one commissioner from each of the City's precincts plus three at-large council members and a mayor at-large. After some discussion, Commissioner Andrajack presented a proposal that would have the City drawn into quadrants, based on population splits, with one position on the Commission reserved for a resident of each quadrant. Each of the other three spots on the Commission would have no geographic restrictions, outside of current requirements. These three positions would not be at-large but would have a designated place system.

The following addressed the Commissioners:
Ron Clarke, 204 Preston, Burkburnett

After a very lengthy discussion the following motion was made. Motion was made by Commissioner Andrajack, seconded by Commissioner Thornton to defer action on Agenda Item 11 until such time City Staff has done the research and gathered information to determine population splits for dividing the City into quadrants, to develop four districts.
